The “Birthday Boys”!

Positive Parade
From the Principal

Dear Parents and Care-givers,

Welcome back to 2017. We have started the year running. It was great to see so many people at the Parent Information evening on Friday night. It was a lovely opportunity to catch up with people and find out what is going on at our school for 2017.

The big messages were about our strategic direction. This year our focus is on:

**Wellbeing**
**Deep Learning**
**Writing**

These areas have been chosen for a number of reasons but if simplified down, they have been chosen because they best meet our needs at this time in order to meet our school mission: *To prepare students to lead successful and productive lives*. To do this we believe it is important to create a safe and connected learning community that promotes a sense of belonging and encourages resilient motivated learners.

One of the most interesting new developments for 2017 is the introduction of restorative practice as an approach to our everyday life at school. Restorative Practice places the relationship at the heart of the educational experience as significant learning cannot occur without a significant relationship. Your whole staff has attended professional development regarding the theory behind Restorative Practice and will be attending more so that we can put it into action. We will provide an afternoon session for parents in the near future so that you can understand its worth and power as well.

We look forward to working with our families to ensure a successful and happy school experience for all.

Pam Carlile
Principal

**Electives**
Electives commence this week. Our students have a choice of Fitness, Coding or Art. Envirofreaks is also an option. Those students doing Envirofreaks will not be accessing the fitness rotation. The Electives program allows our students to work across the grade levels with a range of students and teachers. This aligns well with the inclusive nature of our school as everyone is included. It also provides our students with experiences that are similar to high school - working in different classrooms with different teacher and different kids. The best thing about electives is that it is a whole heap of fun!!!!

---

**2017 Dates**
